Customizing Detection

M620 Power Amplifier

The M620 Power Amplifier Assembly includes a Crest Pro 200 Series Audio Amplifier. The assembly is housed inside a rugged rack mount rolling case. The front panel includes access to the power amplifier attenuation dials, as well as signal input/output connectors.

“The Pro 200 Series professional power amplifiers offer Crest's renowned sonic integrity while providing high power ratings. The Pro 200 Series amps feature Automatic Clip Limiting (ACL) to protect connected drivers; IGM Impedance Sensing to accommodate varying impedance outputs; tunnel-cooled, high efficiency heat sinks and variable-speed DC fans to limit the operating temperature and extend amplifier life.”

M620 Amplifier Characteristics

Includes:

Crest Pro 200 Series Audio Amplifier, voltage gain and impedance matching components. Step-up transformer, front panel with signal input connector and transducer output connector

Portable Case

Rack mounted in 6U weather type plastic enclosure

Power

120VAC, 60Hz or 230VAC, 50Hz

Weight

35 kg

Dimensions

63x38x63 cm

Includes:

Step-up transformer, front panel with signal input connector and transducer output connector
